WHY SANY SWING BOOM EXCAVATORS?

EASY TO OWN. EASY TO OPERATE.

SANY's swing boom excavators are compact equipment champs. They make the most of limited space – on the job and on the way there – with four models under 12,000 lbs for easy transport. This group offers outstanding digging depth and hydraulic performance, all with the desirable agility of a swing boom. The SY16C, SY26U and SY35U run without a DPF. If you require more performance, capacity and productivity, the SY50U, SY60C and SY80U will get the job done. Whichever model is right for you, you can enjoy the peace of mind that comes with SANY's 5-year/5,000-hour warranty.

CHAMPIONS OF CONFINED SPACES

Geared to minimize operating expenses and maximize uptime, SANY's reliable compact excavators range in size from 1.8t to 8.8t. Offered in a variety of machine configurations, these mini and small-sized excavators can fit your application, jobsite and transportation requirements.

There are some breakout standard features making this group enticing to operators. All models are equipped with hydraulic pilot controls, pattern-change valve, auxiliary flow circuits and work light packages. The SY35U through the SY80U offer spacious standard enclosed, climate-controlled cabs and digital displays with on-board diagnostics—all of which improve the operator experience. All SANY swing boom excavators are easy to own and easy to operate through a simple design that incorporates many standard features which would typically be optional.

**WE'VE GOT
YOUR
BACK**

To provide peace of mind and ensure maximum uptime, SANY backs all its equipment with robust standard warranties. That's our commitment to keeping your fleet running at peak performance. Our network of local dealers will partner with you for routine maintenance and be there for warranty repairs. You can trust SANY to keep you moving, year-round.

KEY FEATURES ||| SY16C, SY26U, SY35U, SY50U, SY60C, SY80U

MANEUVERABILITY

These machines give you the ability to master confined spaces without sacrificing power or precision. The combination of a compact tail swing radius and swing boom provide an extra degree of freedom to move.

SERVICEABILITY

Because ease of service means back in service, SANY builds all its equipment with trusted components, straightforward designs and accessible service points.

VERSATILITY

All machines feature standard auxiliary lines to run powered attachments, and SANY has teamed up with attachment suppliers to offer a wide variety of solutions from buckets to breakers.

ATTACHMENTS

All swing boom excavators are outfitted with primary auxiliary circuits. The SY50U and SY80U have secondary auxiliary circuits as well. Models SY35U and above are plumbed to the end of the stick for a quick coupler. New for 2023, the SY35U offers a flow divider. All models allow you to customize the machine with the attachment that fits your application.

VALUE

Compare any SANY machine side by side with the competition, and you'll recognize the value that comes with our simple design and standard feature set. Add our industry-leading standard warranties and durability, and SANY delivers superior value.

INDUSTRY-LEADING WARRANTIES

To provide peace of mind and ensure maximum uptime, SANY's compact excavators are backed by a 5-year/5,000-hour industry-leading standard warranty.

SUPPORT

SANY offers outstanding aftermarket support. Our network of local dealers will partner with you for routine maintenance and be there for warranty repairs.

THE SMOOTH, PRECISE CONTROL COMES STANDARD

Operators of all levels will appreciate the intuitive operation of SANY's swing boom excavators. These machines feature hydraulic pilot controls to deliver smooth responsive control and allow experienced operators to feel the increase in pressure and resistance on the spool.

For operators who spend all day in the seat, SANY makes it easy with roomy cabs, comfortable seats, Bluetooth radio and climate control. Three models offer the option of an enclosed cab or canopy which makes for easy ingress/egress. SANY swing boom excavators help operators minimize downtime and boost productivity with in-display diagnostic tools that alert operators to potential issues.

ATTACHMENTS

Pre-plumbed auxiliary lines for one-way and two-way flow run a wide variety of attachments, from buckets to breakers as well as thumbs and quick couplers. When equipped with these quick couplers, operators can easily reduce the time it takes to change work tools, enhancing workflow and flexibility in the field.

SAFETY

SANY swing boom excavators are designed to promote jobsite safety and keep projects moving smoothly. Magnetic beacon and travel alarm alert workers during machine movement. Bright LED lights on the exterior of the excavator provide visibility in low-light conditions. A ground-accessible emergency cutoff switch completely shuts down the machine in case of emergency.

SERVICE, VALUE & SIMPLE OPERATION

SERVICE THAT'S LOCAL

When we say that SANY machines are built to endure, we're really talking about service. SANY equipment is intentionally designed to be easily and efficiently serviced, with features such as wide compartment doors and ground-level access to make maintenance more efficient. Because ease of service means back in service.

UNMATCHED VERSATILITY & ROI

SANY swing boom excavators are built for cross-application versatility and jobsite maneuverability, combining the agility of a swing boom with a range of tail swing options including zero, reduced and conventional tail swing. All machines feature standard auxiliary circuits to run powered attachments: SY16C/26U/35U/60C (primary auxiliary circuit) and SY50U/80U (primary and secondary auxiliary circuits). These excavators are a great first machine or an addition to your fleet. They're configured with a hydraulic system designed to improve speed and power while reducing fuel consumption. Pair SANY's affordability with added standard features and SANY swing boom excavators are hands-down a great investment. And SANY backs every swing boom excavator with the industry's strongest standard warranty – 5 years/5,000 hours.
